# Student Transition Plans

- All Valerius students will attend Jensen Elementary for the two-year construction phase (2021-22 and 2022-23)
- We'll be creating a welcome video and tour of Jensen Elementary that will be shared with all students and families
- PTO is teaming with our art teacher on a project for legacy wear for Valerius
- Additionally, I'm collaborating with our art teacher on an idea that we can use to start getting students involved with making Jensen feel like "home"

## Valerius Bus Information for 2021-22

- Any student who resides in the Valerius attendance area will be provided bus service free of charge to the Jensen site. This is true for all Valerius zones (free, pay, and walk).
- Families may sign up for bus transportation during the spring online registration process. Routes and stops will be created based on the requests received.
- Open enrolled students are able to purchase bussing from established stops if they would like.
- Bussing is optional. Students are not required to utilize the bus service.
- The bus service is for school hours only (Note: If a parent is utilizing Adventuretime Before/After School Childcare there would not be bussing early or late in the day to access that service).

# Staff Transition Plans

- We've started working with staff on transition plans. The bulk of the work will really pick up in March as we start purging and packing our current school.
- There will be collaboration with current Jensen staff about furniture that will stay so teachers can make decisions on what they want to go.
- An extra 16 hours of paid time will be given for staff to pack their belongings in the classroom to be sent over to Jensen.
- Hoping to bring in some parent volunteers to help pack our common areas (knowing this would have to be done outside of school hours).

# Valerius Legacy Celebration

- Hosting two celebrations- one for students and staff during the day, and one for the community in the evening.
- Valerius Student Legacy day will include events that incorporate school history, legacy artwork, as well as an outdoor lunch and activities.
- Valerius Community Legacy Event will be a combination of virtual and onsite depending on what restrictions remain in place at that time.
